

CV of Dr Roger HIGGS

(updated to 24th May 2015)

Consultant Clastic Sedimentologist & Sequence Stratigrapher

PERSONAL

Age 61

Date of birth 12-12-53

Place of birth Chalfont St Giles, England, UK

Nationality British & Canadian

Passport number 510512545 (UK), expiry 18-5-23

Languages Fluent English & Spanish; rusty French

Marital status Married

Address 5 Breakwater Road, Bude, Cornwall EX23 8LQ, UK

Email rogerhiggs@hotmail.com rogerhiggs@geoclastica.com

Mobile phone +44 7880 515748

EDUCATION, EMPLOYMENT, etc.

Education	BSc Hons	Petroleum Geology	London, UK	1972-75
	MSc	Sedimentology	Calgary, Canada	1975-77
	DPhil	Sedimentology	Oxford, UK	1982-86

Thesis: 'A Facies Analysis of the Bude Formation (Lower Westphalian), SW England'. Supervisor: Dr H.G. Reading

Career to date:

1977-1982 **Petroleum Explorationist**, Canada:
(5 years) 1977-78, Imperial Oil Ltd (Exxon), Calgary. Exploration Geologist. 1 year of diverse training, incl. a 6-month seismic interpretation project (Labrador Sea)

1978-82, Aquitaine Co. of Canada Ltd & successor Canterra Energy Ltd, Calgary. Exploration Geologist, rising to Exploration Supervisor, Peace River Arch District, supervising 2 geologists, 2 geophysicists, 1 technician

1982-1986 **Doctoral research**, University of Oxford, UK (see 'Education' above)
(4 years)

1987-present **Consultant** in clastic sedimentology & sequence stratigraphy. Founder, (28 years) owner, managing director & sole employee of consultancy **Geoclastica Ltd**, UK, incorporated 1998 <http://www.geoclastica.com/>

Clients: Beicip-Franlab; BHP (Angostura Project); British Columbia Ministry of Energy; Canadian Petroleum; Chevron; Ecopetrol; Elf; Emerald; Finavera; Geoquest; Geological Survey of Canada (2 years); IFP; Intera; Jordan NPC; Mobil; Noble (Tamar Project); Petróleos de Venezuela (PDVSA, 3 years); PetroSA; Preussag; Repsol; Schlumberger; Talisman; Tectonic Analysis Inc.

Basins: 25 basins in 14 countries on 6 continents. Download pdf table at <http://www.geoclastica.com/RogerHiggsCV.htm>

Projects: Exploration & development projects, mainly involving ...
-sequence stratigraphic correlation of well logs*
-facies analysis of outcrops, cores & image logs*
-sandstone thin-section diagenetic analysis (porosity prediction)
-synthesis of tectono-sedimentary evolution of basins (e.g. Higgs 2009a)
* = including Orinoco Heavy Oil Belt, Venezuela, for PDVSA

Course (5 days) presented on Clastic Facies Analysis and Sequence Stratigraphy, in Venezuela (PDVSA, annually 2003-07, 2011), Colombia (Ecopetrol), France (Kuwait Oil Company), Malaysia (Petronas Technology University)

Field trips led in Trinidad & Venezuela, including an annual 6-day excursion for PDVSA (2006-09)

Bude Geological Walks for the general public (2009-present)
http://www.tripadvisor.co.uk/Attraction_Review-g190804-d1573061-Reviews-Geoclastica-Bude_Cornwall_England.html

Society memberships: AAPG, GSA, IAS, PESGB, SEPM; Geological Society fellowship (inactive)

AAPG conference presentations: Caracas 1993, Cape Town 2008, San Antonio 2008, Ushuaia 2008, Rio de Janeiro 2009, Houston 2014, Midland 2014, Lisbon 2015
